

# CONSTELLATION

05 October 2024  
20h00 - 22h00

It is a rapidly changing time. The integral approach to constellation work, hosted by Bence Ganti from Hungary, Anne-Marie Voorhoeve, Haasena Patel and other expert constellators, see both the inherent dignity and the destructive shadow of each developmental stage and value-system and seeks collaborative, integrative solutions in which the core value of each value-system is met and woven into an integrated systemic solution.

To be "integral" also means that we look inside and exercise self-examination (left quadrants of Wilber). Leaving our emotional-subjective side unexamined results in unconscious shadow behavior that is projected to a collective level, contributing to conflicts in society and dishonesty among communities. Examination of our emotional-subjective side, on the other hand, results in actions that come from a place of compassion and wisdom, which bring balance and peace. An honest individual and collective self-examination is necessary not only for the individual's psychological wellbeing but also for the collective's wellbeing and for national and international harmony and peace.

Bert Hellinger, a pioneer in constellation work, developed this intervention method whilst being inspired by the Zulu culture in South Africa where he worked for 16 years as a missionary. The connections, commonalities and differences have never been explored in-dept. Constellation work seems to be an adequate transcultural intervention method to contribute to healing, therapeutic work and understanding of systemic family constructs across cultures, not only in South Africa, but also abroad.

Join us in this insightful event where the collective soul of Africa, in it search for the global soul is explored and indeed celebrated. Aunkh Khem S-Maã, an expert on indigenous knowledge systems is leading us into the constellation.

**Not to be missed!!**

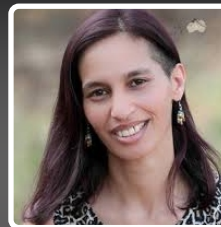

Facilitators:

BENCE GANTI

DRS ANNE-MARIE VOORHOEVE

HASEENA PATEL
